

Pendulum Squat

The Nautilus Pendulum Squat's unique design allows users to squat deeper with more control, resulting in greater muscle activation and a more effective workout for quad development. The Pendulum Squat design minimizes strain on the lower back and hips which offers both safety and versatility for all fitness levels. Featuring back-loaded plates with a max load of 360 lbs, adjustable foot platform, band resistance, integrated plate storage, and a linear motion system with user pre-stretch adjustment for optimal start position, this machine ensures efficient strength-building.
