KEVLAR® RUBBER MEDICINE BALL

This uniquely designed medicine ball is one of a kind. We used tire technology to combine the best natural rubber with DuPont™ Kevlar® fiber making this the most durable medicine ball on the market. This is truly an evolution in a product that hasn't seen progress in decades. Unique custom pattern provides grippy texture to aid in catching, throwing, slamming, or moving with the ball in general. This ball has a medium bounce to it and is not a dead bounce slam ball.

KEPROTEC® KEVLAR® SAND DISC W/ FOAM HANDLES

Our Sand Disc with Foam Handles provide extra grip on the edges for added exercises, control, and grip strength. This highly durable sand disc keeps its shape due to its heavy-duty construction. Filled with steel sand, the shape enhances workouts due to the shift in the sand during use. Soft weight prevents damage to the user and to the floor.

Kevlar

KEPROTEC® KEVLAR® SANDBAG

This extremely durable sandbag will help you take your total body workouts to a new level. The Kevlar® fiber cover featuring 5 nylon handles with reinforced stitching allows for the most heavy of use. Special interior construction prevents weight from shifting around in bag and helps the bag maintain its shape. All bags come prefilled with weight so no filling required
